performance S4-260 L

TRUCK SUPERSTRUCTURE

The ecomode performance line includes closed motor vehicles and central-axle trailers, especially for the safe transport of particularly exclusive limousines, precious prototypes, individual exhibition vehicles and vintage cars.

- Due to the high payload, up to four vehicles can be transported together
- Large hinge doors with optional central locking system on both sides of the vehicle provide easy access and good visibility to the loaded vehicles
- The hydraulic elevating lift offers comfortable, barrier-free loading and unloading, especially for motorsport and supersport vehicles
- Flexible in use, especially for urban and distribution transport

Type:

ecomode performance S4-260 L

WEIGHTS & DIMENSIONS

Technically permissible maximum mass:
26,000 kg

Maximum payload:
8,500 kg (depending on equipment)

Length of inside tracks:
9,450 mm

Entry width:
2,270 mm

Overall vehicle length:
max. 12,000 mm

Notice:
The S4-260 L truck is an individual vehicle. Combined trailer operation is not possible because of the hydraulic elevating lift.

Driven by professionals®

When you purchase a Kässbohrer vehicle transporter, you not only acquire the vehicle but also a wealth of services and the certainty that you are driving the transporter of a company that is the market leader concerning quality and consistency.

Kässbohrer vehicle transporters are compatible with the chassis of all leading truck manufacturers. The design of Kässbohrer vehicle transporters makes it possible to combine motor vehicles and trailers of different model series and thus precisely adapt them to your individual transport requirements.

All common spare parts are quickly available from the Kässbohrer Service Center and from the contractual partners. A user-friendly spare parts catalogue, with a lot of additional information and the possibility of online access, guarantees problem-free ordering. Repairs are carried out quickly and reliably in our own workshop in Salzburg-Eugendorf (Austria) and at the contracted workshops on the main European transport routes.
