ecomode performance T2-180

TRAILER

The ecomode performance line includes closed motor vehicles and central-axle trailers, especially for the safe transport of particularly exclusive limousines, precious prototypes, individual exhibition vehicles and vintage cars.

- Maximum protection and safety for the vehicles to be transported
- The high payload enables the transport of heavy SUVs and luxury limousines
- Designed for coupling with *ecomode performance S2-260* and with other suitable trucks
- Comfortable loading of vehicles with low ground clearance
- Large hinge doors with optional central locking system on both sides of the vehicle provide easy access and good visibility to the loaded vehicles
- Flexible in use, especially for urban and distribution transport

Type:

ecomode performance T2-180

WEIGHTS & DIMENSIONS

Technically permissible maximum mass:
18,000 kg

Maximum payload:
11,000 kg

Length of inside tracks:
6,650 mm

Entry width:
2,240 mm

Overall vehicle length:
max. 8,550 mm

Notice:
The T2-180 trailer can be combined with the S2-260 truck.

Configuration of the *ecomode* Trailer *performance T2-180*

Standard equipment:

- Fully hot-dip galvanised lower loading platform with two pairs of pan fields and six pairs of pan covers
- Fully hot-dip galvanised upper loading platform with four spindle lifting pillars
- Twin tyres for high payload
- Box body with two sliding/folding doors on the left side and one double hinge door on the right side
- LED loading area lighting
- Stainless steel tool box

Optional equipment:

- Radio remote control for all *ecomode* functions
- Cable winch installed at the front end of the lower platform
- Central door locking system
- Box body with temperature isolation layout and cooling unit
- Multicolor lacquering / metallic lacquering

For more details and additional equipment options please refer to the respective data sheets. The illustrations are used as examples and might show vehicles with optional equipment. We reserve the right to make changes due to errors or based on technical progress.

Loading example *ecomode* performance S2-260 combined with *ecomode* performance T2-180 with 4,00 m height.
Observe national regulations!

Driven by professionals®

When you purchase a Kässbohrer vehicle transporter, you not only acquire the vehicle but also a wealth of services and the certainty that you are driving the transporter of a company that is the market leader concerning quality and consistency.

Kässbohrer vehicle transporters are compatible with the chassis of all leading truck manufacturers. The design of Kässbohrer vehicle transporters makes it possible to combine motor vehicles and trailers of different model series and thus precisely adapt them to your individual transport requirements.

All common spare parts are quickly available from the Kässbohrer Service Center and from the contractual partners. A user-friendly spare parts catalogue, with a lot of additional information and the possibility of online access, guarantees problem-free ordering. Repairs are carried out quickly and reliably in our own workshop in Salzburg-Eugendorf (Austria) and at the contracted workshops on the main European transport routes.
