

# Kässbohrer

Driven by professionals®

**metago® pro**

## WEIGHTS & DIMENSIONS

## TRUCK SUPERSTRUCTURE

*The key points of the metago® pro model family are flexibility and excellent load factor. This innovative vehicle transporter impresses with its virtually unlimited loading options.*

- ◆ High load factor due to hydraulically adjustable platforms
- ◆ Easy and precise loading and unloading provide load safety and efficiency
- ◆ Ergonomic layout of the hydraulic controls with a perfect view of the moving platform components
- ◆ Pillar groups and wheel housings are designed for a maximum load height
- ◆ Features an optimized mounting space for the original fuel tank or for the Kässbohrer fuel reservoir solutions
- ◆ Flexible operation in case of permanently changing loading demands

**Net weight superstructure:**  
min. 4,450 – max. 5,350 kg

**Wheel base:**  
5,400 – 5,600 mm

**Overall vehicle length:**  
11,270 mm (type M1)  
12,300 mm (type M4, fp)

**Overall vehicle width:**  
2,550 mm

**Entry height:**  
2,050 mm (type M1)  
1,900 mm (type M4, fp)

**Platforms passage width:**  
2,330 mm upper platform  
2,325 mm lower platform

**Type:**

metago® pro M1

metago® pro M4

metago® pro M4 fp

## Configuration of the **metago® pro** truck superstructure

### Standard equipment:

- ◆ Bolted light metal construction
- ◆ Hydraulic system with automatic locks
- ◆ Upper platform with front supporting pillars with lifting spindles
- ◆ Single arm extension at the rear lifting system
- ◆ Hydraulic extension at the rear end of the upper platform
- ◆ Upper and lower platform in galvanized finish
- ◆ Low wear Kässbohrer hitch ball coupling
- ◆ Non slip ladders on both sides

### Optional equipment:

- ◆ Drive on ramps towards upper front platform, manually extendable (1,000 – 1,500 mm)
- ◆ Hydraulic rear platform with one pair of pans and two pairs of fixing girders
- ◆ Automatic lubrication system
- ◆ Hydraulic winch, including freewheeling, covers, deflection and guide rollers and wireless remote control
- ◆ Possibility to integrate the manufacturer's original fuel tank

For more details and additional equipment options please refer to the respective data sheets. The illustrations are used as examples and might show vehicles with optional equipment. We reserve the right to make changes due to errors or based on technical progress.

### Driven by professionals®

When you purchase a Kässbohrer vehicle transporter, you not only acquire the vehicle but also a wealth of services and the certainty that you are driving the transporter of a company that is the market leader concerning quality and consistency.

Kässbohrer vehicle transporters are compatible with the chassis of all leading truck manufacturers. The design of Kässbohrer vehicle transporters makes it possible to combine motor vehicles and trailers of different model series and thus precisely adapt them to your individual transport requirements.

All common spare parts are quickly available from the Kässbohrer Service Center and from the contractual partners. A user-friendly spare parts catalogue, with a lot of additional information and the possibility of online access, guarantees problem-free ordering. Repairs are carried out quickly and reliably in our own workshop in Salzburg-Eugendorf (Austria) and at the contracted workshops on the main European transport routes.
