2019 Program - Technical Training

Kässbohrer
Driven by professionals®

Technical Training Courses

The technical training courses offered by Kässbohrer Transport Technik provide the perfect chance to get informed practically and comprehensively about the technical systems of our products, about their maintenance and diagnostics. This way you receive the necessary theoretical and practical knowledge at first hand. These courses offer extensive knowledge on all components of the Kässbohrer range of products. Professional instructors focus on the individual demands of the participants, to teach up-to-date knowledge of the various topics in a practical, clear and comprehensive way.

No matter whether you participate in a one-day or a two-day course, every module puts the emphasis on practical demonstrations, which will teach you the handling of and hints and tricks for individual parts. All training courses are carried out for small groups of participants only – this way every attendee will draw the greatest benefit from our courses.

Take advantage of our offer to a professional dialogue and exchange of experiences!

We are looking forward to seeing you there.

Conditions for participation

Written registration

Registration must be carried out by fax or by mail using these contacts: **+43 6225 / 28 100-360** or training@kaessbohrer.at

As the number of course participants is limited, all registrations will be accepted according to the date of receipt. By registering you accept the conditions for participation. There is no legal right for participation.

Number of participants

In order to offer the highest possible benefit of the training course to every participant, we try to limit the number of participants to 8 persons.

Participation fee

The fees for a 2-day seminar range from 195,- Euro to 225,- Euro (plus VAT). Besides seminar participation, this price includes all seminar documents, catering (drinks during the seminar, lunch for 2 days, incl. dinner on the first evening until 22:00 h). Binding registration includes the obligation to pay the participation fee. The fee will be charged at the end of the seminar. Payment obligation will also persist in case of non-appearance. The statutory VAT will be added to the seminar fee which is payable upon receipt of invoice without deductions.

Conditions of cancellation

Cancellations will be free of charge when coming in at least 10 working days before the seminar. In case of later cancellations a cancellation fee of 50% of the seminar price will be charged, in case of non-appearance a fee of 100% will be charged. We apologize for any inconvenience.

Kässbohrer Transport Technik reserves the right to cancel a planned seminar in case of too few participants, illness of the instructor, force majeure or other unforeseen incidents. Registered participants will be informed without delay. There will be no refund of expenses on the customer's side. If certain topics will be explained in more detail than planned to the benefit of the participants, and other topics will be cancelled, there will be no claim for reimbursement.

Schedules for two-day seminars

All training courses held in Eugendorf will start at 9.00 h on both days, and will end on the second day at 16.00 h. At other locations the exact schedules will be fixed individually.

Protection of private data

Your data will be filed for processing on data carriers of the Kässbohrer Transport Technik GmbH. There will be no data transfer to third parties.
