

# MODULE I: BASIC

**Hydraulics**  
**Electrics**  
**Lifting systems**  
**Drawbar assembly**  
**Axles**  
**Brake systems**  
**Spare parts**  
**Warranty**

The participants receive a detailed system overview, as well as the relevant basic knowledge on the electric and hydraulic components. Elementary information on axles, brakes and on how to install spare parts will complete the training. Useful online tools for ordering spare parts, for service and support during repair works, as well as on the steps of warranty processing will be presented.

Facts:  
2 days  
9.00 - 17.00 h

Audience: workshop manager, mechanics

# MODULE II: SPECIAL

**Focus:**  
**Hydraulics**  
**Electrics**  
**Components**  
**Diagnosis**  
**Maintenance**

Pricing varies depending on the number of participants (min. 6 participants)  
Individual training plus travel expenses if necessary Trainer

The participant will gain knowledge of the electrical and hydraulic components with a focus on practical case studies and will thus be able to perform efficient and simple diagnostics and checks. A detailed system overview as well as suggestions for system-compatible maintenance deepen the knowledge gained. The module is specifically adapted to the needs and is also carried out externally.

Facts:

2 days

9.00 - 17.00 h

Audience: workshop manager, mechanics

# CONDITIONS FOR PARTICIPATION

## Written registration

Registration must be carried out by mail [training@kaessbohrer.at](mailto:training@kaessbohrer.at)

As the number of course participants is limited, all registrations will be accepted according to the date of receipt. By registering you accept the conditions for participation. There is no legal right for participation.

## Number of participants

In order to offer the highest possible benefit of the training course to every participant, we try to limit the number of participants to 8 persons.

## Participation fee

The fees for a 2-day seminar will be announced on request. Besides seminar participation, this price includes all seminar documents, catering (drinks during the seminar, lunch for 2 days, incl. dinner on the first evening until 22:00 h). Binding registration includes the obligation to pay the participation fee. The fee will be charged at the end of the seminar. Payment obligation will also persist in case of non-appearance. The statutory VAT will be added to the seminar fee which is payable upon receipt of invoice without deductions.

## Conditions of cancellation

Cancellations will be free of charge when coming in at least 10 working days before the seminar. In case of later cancellations a cancellation fee of 50% of the seminar price will be charged, in case of non-appearance a fee of 100% will be charged. We apologize for any inconvenience.

Kässbohrer Transport Technik reserves the right to cancel a planned seminar in case of too few participants, illness of the instructor, force majeure or other unforeseen incidents. Registered participants will be informed without delay. There will be no refund of expenses on the customer's side. If certain topics will be explained in more detail than planned to the benefit of the participants, and other topics will be cancelled, there will be no claim for reimbursement.

## Schedules for two-day seminars

All training courses held in Eugendorf will start at 9.00 h on both days, and will end on the second day at 16.00 h. At other locations the exact schedules will be fixed individually.

## Protection of data privacy

Your data will be filed for processing on data carriers of the Kässbohrer Transport Technik GmbH. There will be no data transfer to third parties.
